Sub-Sahara Power Distributors has dedicated and committed personnel who relentlessly strive to ensure we surpass our customers' expectations by providing them with quality energy sources to meet the needs of the 21st-century. Sub-Sahara Power Distributors embraces a culture of offering quality products.

The company boasts strong relationships built with its distribution network, ensuring that end-user customers receive the best after-sales service. The need for constant innovation is a characteristic of our culture of flexibility, technical excellence, superior quality, and friendly yet professional service. Our experienced staff and partners undergo continuous training to remain at the forefront of technological advancement.

Product Range - Generators

Rehko is one of the world leaders in the manufacture of European generating sets and specializes in the design of world-leading standby, prime, or base load generator sets.

The production facility at Rehko has enabled Sub Sahara Power Distributors to have a storage facility in Johannesburg, South Africa.

To ensure that you are never without energy, Sub-Sahara Power Distributors has a reputation for offering the best quality standby as well as prime power generating sets in our range. Our products are powered by a combination of the highest quality engine and alternators, our very own Rehko Diesel (KD Series), Mitsubishi, Volvo, John Deere and Doosan coupled with Mecc Alte and Leroy Somer alternators.

Diesel Range

- Pacific I Range: 12kVA - 16kVA (Small Mitsubishi)
- Adriatic Range: 6kVA - 66kVA (Small Kohler KDI)
- Montana Range: 22kVA - 250kVA (John Deere)
- Atlantic Range: 275kVA - 715kVA (Volvo)
- Oceanic Range : 275kVA - 830kVA (Doosan/Hyundai)
- Pacific III Range: 1250kVA - 2800kVA (large Mitsubishi)
- KD Range: 800kVA - 4500kVA (large Kohler)

Gas Range

- Residential LPG: 10kVA - 18kVA
- Nevada Range: 25kVA - 400kVA (Industrial Natural Gas Range, Rehko engine)

Product Range - Alternators

We collaborate with Mecc Alte and integrate their alternators into our products. Mecc Alte designs and builds world class alternators ranging from 1 to 5,000kVA, with options on single-bearing and double-bearing up to 13.5kV. With over 70 years of success, their solutions are proven in the real world. Their end-to-end solutions ensure that we deliver backup and standby power to keep your world turning.

As an alternator supplier, we possess proven expertise and experience in research, design, low-cost manufacturing, and development capabilities. With manufacturing facilities in Italy, the UK, and India, coupled with high market capabilities and a powerful worldwide reputation, we offer a fast and reliable alternator solutions to service our customers.

Product Range - Batteries

FIAMM Energy Technology is a multinational company engaged in the production and distribution of batteries with manufacturing facilities in Italy. For over 70 years FIAMM Energy Technology has leveraged innovation and expertise to bring the best energy backup products and solutions to the market for every business.

Product Range - EV Chargers

ABB lays the foundations for a future of smarter, reliable, and emission-free mobility, accessible by everyone, everywhere.

Sub Sahara Power Distributors offers a total EV charging solution, from compact, high-quality AC wallboxes and reliable DC fast charging stations with robust connectivity, to innovative on-demand electric vehicle charging systems.

We deploy infrastructure that meets the needs of the next generation of smarter mobility

In addition to improving corporate sustainability, migrating to an electric vehicle fleet can eliminate fuel costs and reduce vehicle maintenance expenses, generating significant operational savings.

Choosing the right charging solution, however, is vital when efficiency and productivity are critical to operations. ABB's EV chargers offer 99% uptime and, through intelligent asset management, will help reduce energy costs and optimize fleet operations.

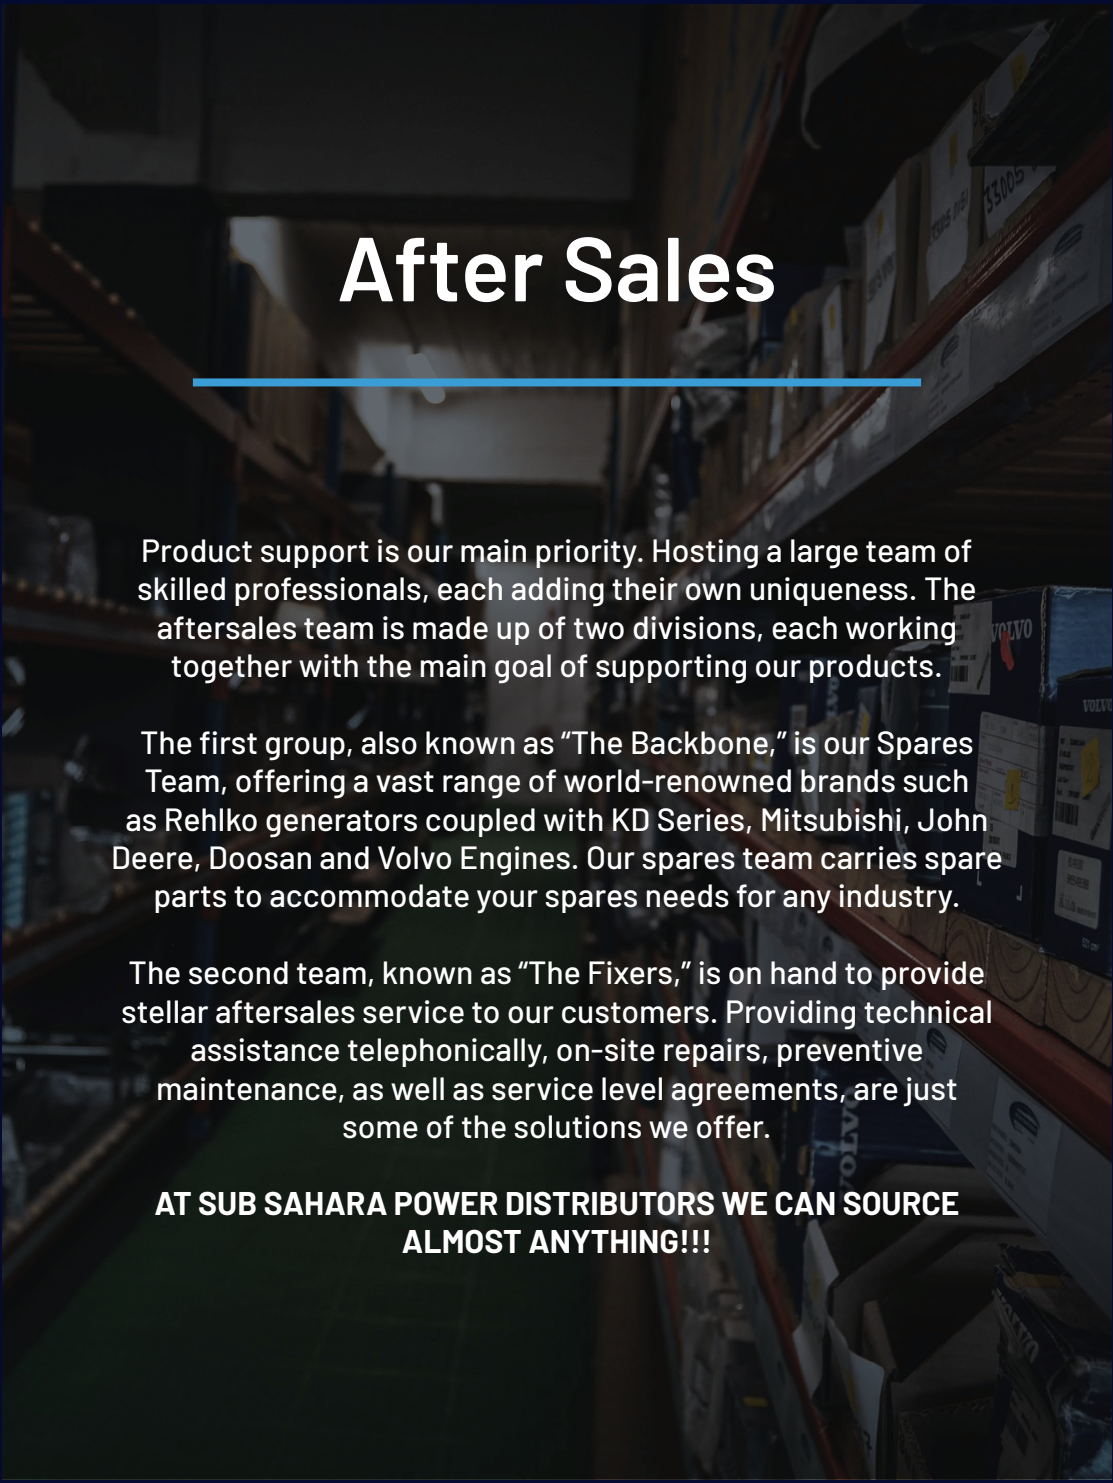

Product Range - Spare Parts

Sub Sahara Power Distributors through our partnership with Donaldson Filtration solutions solve customers' filtration challenges and give employees opportunities to do their best work in both business and the community. We have helped solve some of the most complex filtration challenges in our region. We are driven to provide solutions to our customers, motivated to do our best work, and committed to doing the right thing in both business and the community.

After Sales

Product support is our main priority. Hosting a large team of skilled professionals, each adding their own uniqueness. The aftersales team is made up of two divisions, each working together with the main goal of supporting our products.

The first group, also known as “The Backbone,” is our Spares Team, offering a vast range of world-renowned brands such as Rehlko generators coupled with KD Series, Mitsubishi, John Deere, Doosan and Volvo Engines. Our spares team carries spare parts to accommodate your spares needs for any industry.

The second team, known as “The Fixers,” is on hand to provide stellar aftersales service to our customers. Providing technical assistance telephonically, on-site repairs, preventive maintenance, as well as service level agreements, are just some of the solutions we offer.
